

METHODE AUTOMOTIVE ELECTRONIC CONTROLS DIVISION

Structure and Responsibilities

Methode Electronics, Inc. *Carthage and Golden, Illinois*

Environmental Policy

Methode Electronics, Inc. is a leading supplier of electronic switches, interconnects and controls to the auto industry. The Carthage and Golden, Illinois facilities are major domestic producers for these devices.

Methode operates these plants under recognized acceptable environmental practices. We intend to meet or exceed the legal, regulatory or other environmental requirements in all material respects. We shall strive for further improvements in our environmental performance, and in the prevention of pollution.

Specifically, we aim to:

- Reduce, reuse and recycle wastes
- Improve the efficiency of energy usage

This environmental policy will be communicated to all parties interested in our environmental management system.

Donald W. Duda
